AREAS OF EXPERTISE

• Permanent Impairment Assessments	• Insurer & Employer Claim Management
• Independent Medicolegal Examinations and Reports	• Environmental Issues Within the Workplace
• Forensic File Reviews	• Workplace visits
• Fitness for Duty Assessments	• Military Medicine
• Occupational Injuries/Illnesses and their Management	• Education of Stakeholders

Dr Chris Cunneen is the expert in the area of Permanent Impairment Assessment using the American Medical Associations Guides to the Evaluation of Permanent Impairment 4th, 5th and 6th Editions. As an Australian member of the Board of Advisors, A.B.I.M.E., he consults and advises jurisdictions both within Australia and internationally.

He is a highly skilled clinician in the investigation and diagnosis of any work related health problem and provides a comprehensive approach to the management and prevention of injury and illness.

Dr Cunneen's assessments are always comprehensive, taking in both medical and non medical factors in the causation and management of the health problem, work related or not. This approach enables the true cause of any patient's concerns to be addressed, allowing any non medical barriers to be identified and managed.
