
Dental Surgeon

Dr Brendan Nasser

BDSc (Qld), MSt (Oxon)

QUALIFICATIONS & FELLOWSHIPS

- Bachelor of Dental Science, University of Queensland
- Diploma in Politics and International Relations, University of Oxford, England

AREAS OF EXPERTISE

- **General Dentistry**
- **Dental Sporting Injuries and Prevention**
- **Fixed Prosthodontic Restorations, including Implant Support Crowns**

SUMMARY

Dr Brendan Nasser graduated from the University of Queensland Dental School in 1986, and is an experienced and respected Dental Surgeon with special interest in general restorative dental treatment, including implant-supportive crown and bridge work, and the prevention of dental injury in sport.

Dr Nasser provides services relating to common oral diseases such as dental caries and periodontal disease, including restorative procedures, surgical removal of teeth, periodontal treatment, endodontic treatment, and fixed prosthodontic crown and bridge work.

Dr Nasser has been an independent medicolegal consultant dental surgeon since 2001, and provides a wealth of experience relating to general and specialist dental procedures.

Dr Nasser has represented Queensland and Australia in the sport of rugby union and, as co-author to a number of research papers on the bimaxillary mouthguard, has a special interest in the prevention of dental injuries in body contact sport.

Dr Nasser presented on Concussion in Sport at the 26th World Law Congress on Medical Law on the Gold Coast, Queensland in December 2022.
